

# TOSHIBA T3200

# T3200

Toshiba knows that in the PC world bigger isn't always better. And Toshiba proves it again with the Toshiba T3200. The Spacesaver. A fast portable with expansion slots. Full size keyboard. Separate numeric keypad. Mobility. Power. Capacity. Speed. Full size desktop function in an elegant and compact package. And speed has never looked so beautiful. Inside the portable T3200 is a powerful, fast,

and expandable full function computer. Not only a high speed 12 MHz 80286 microprocessor but also a fast 40 MB hard disk. And EGA graphics as standard. A high resolution variable contrast gas plasma display and optional memory expansion to 4 Megabytes – without using a slot. The full size keyboard has a separate numeric keypad. Two expansion slots are standard. Fit a network card. A bus mouse. Mainframe communications. Graphics processor. Or a modem. Or any other expansion board from a wide range. And the complete computer can always be folded and locked away to provide the complete security that desktops lack. The Toshiba T3200. The Spacesaver. Another wonder from Toshiba.

## Specifications

● Processor	Intel 80286 – 12 MHz. Optional 80287-8 math co-processor.	● Expansion slots	One full size 16/8 bit slot and one half size 8 bit slot.
● Memory	1024 KB standard. 640 KB may be used for MS-DOS and 384 KB as expanded memory (Lotus/Intel/Microsoft standard), as virtual disk, or as extended memory. Optional 3 MB memory expansion card for total RAM of 4 MB.	● Interfaces	RS-232C serial Centronics parallel Colour display (RGB) External diskette drive External keyboard
● Diskette Drives	One built-in 3.5" 720 KB diskette drive. A second 5.25" 360 KB diskette drive can be connected.	● Real Time Clock/Calendar	Standard – backed up by long life lithium battery.
● Hard Disk	A fast built-in 3.5" 40 MB (formatted capacity) hard disk.	● Operating System	MS-DOS 3.2 EMS PC LAN support BASIC version 3.2 option Windows version 1.1 option
● Display	High resolution EGA compatible gas plasma with variable contrast and variable brightness. Can display up to 4 gray scales. Display can also support CGA, Hercules, and 640 by 400 resolution. Maximum resolution supported is 720 by 400.	● Measurements	370 x 395 x 99 mm (W x D x H)
● Keyboard	Sculptured 85 key with separate numeric keypad.	● Weight	8.5 kg
		● Power Supply	110/220 volts, 100 W, switchable
